

# Anthony Kelley

Cyber Security Analyst

(254) 226-7876 ◇ [kelly.athonyk@gmail.com](mailto:kelly.athonyk@gmail.com) ◇ United States ◇ [My Portfolio/Personal Website](#) ◇ [LinkedIn](#)

## SUMMARY

Highly motivated and results-oriented professional with 20 years of experience in logistics management, transitioning to a career in cybersecurity. Strong foundation in IT and cybersecurity, with a proven ability to analyze data, identify and mitigate risks. Experienced in leading and collaborating within teams. Possesses AWS Cloud Practitioner certification and actively pursuing additional security certifications. Eager to leverage technical skills and analytical mindset to contribute to a secure environment. My dedication toward technology and cybersecurity drives me to continually expand my skill set in this rapidly evolving field. I thrive on challenges and am eager to bring my tenacity and collaborative spirit to a Security Analyst role.

## SKILLS

Cloud Services	AWS Services Knowledge	Amazon Web Services Security
CIA	Incident Response	Programming
Python	Scripting	Python
System Administration	Linux Administration	Critical Thinking -Analytical Thinking

## EXPERIENCE

### Logistics Manager

Aug '18 — Jun '22  
Fort Riley, United States

- Managed the movement and ensured the security of over \$1.5 billion in property across six organizations by implementing robust logistics security protocols and achieving a 97% shipping and return rate of equipment with 100% incident documentation. This significantly reduced the risk of loss or theft, safeguarding valuable assets and enhancing organizational resilience.
- Trained 72 employees in logistics operations and security protocols, specifically the Command Supply Discipline Program, enhancing their understanding of best practices and ensuring compliance with industry standards. This training improved overall operational efficiency and minimized the likelihood of security breaches or errors in handling sensitive materials.
- Successfully turned around 12 underperforming logistics departments by leveraging data analysis from the GCSS-Army ERP system to identify inefficiencies and streamline logistics processes. This initiative led to significant improvements in departmental performance, reducing costs, and enhancing overall operational effectiveness within a short time-frame.

### Logistics Manager

Sep '16 — Aug '18  
Fort Wainwright, United States

US Army

- Mentored 14 senior logistics personnel in executing and implementing policies that resulted in a 15% increase in company audits. By providing guidance on compliance measures and best practices, these individuals were able to enhance audit readiness and ensure adherence to regulatory requirements, ultimately strengthening the organization's risk management and governance practices.
- Empowered junior logisticians through comprehensive security training, equipping them to identify and address vulnerabilities in logistics processes. This initiative resulted in a flawless record of 100% sensitive items accounted for and maintained properly, significantly enhancing security and compliance.
- Consistently led successful operations by developing comprehensive support plans, coordinating logistics, analyzing supply chains, and overseeing personnel. A highly valued cross-functional partner, I excel at building consensus and driving transformational change. Recognized for scaling operations and establishing cultures of excellence, consistently inspiring diverse teams to achieve peak performance.

### Supply Sergeant

Jun '12 — Sep '16  
Fort Cavazos, United States

US Army

- Cultivated safe and inclusive work environments by training over 1,000 personnel in Sexual Harassment and Assault Response/Prevention (SHARP) as the Company's Victim Advocate. This initiative fostered a culture of respect and trust, demonstrably increasing victim awareness by 62%.
- Managed complex projects and inventories exceeding \$275 million, demonstrating exceptional financial acumen. Spearheaded a strategic initiative to redistribute and reallocate over \$36 million in excess equipment, returning vital funds to the Organization's budget and optimizing resource allocation.
- Streamlined operations for six organizations by developing and implementing standardized operating procedures (SOPs) across critical areas like logistics, supply discipline, and financial investigations. These SOPs enhanced efficiency, ensured consistency, and minimized errors.

EDUCATION

---

<b>Network Engineer</b> , Cybertex Institute of Technology	Oct '23 — Aug '24 Killeen, United States
<ul style="list-style-type: none"><li>• AWS Certified Cloud Practitioner</li><li>• Security</li><li>• Linux</li></ul>	
<b>Master of Science in Psychology in Master of Science</b> , Grand Canyon University	Aug '18 — Dec '20 Phoenix, United States
